CONFERENCE & EXHIBITION | 6 MARCH 2025, MARINA BAY SANDS

POSSIBILITIES

open the door to new ideas and opportunities.

PIVOTING

occurs when adjustments or transformations are needed to align with evolving possibilities or changing circumstances.

INSPIRATION

turns those possibilities into a compelling vision.

ACTION

is the step of making that vision real, through implementation.

Now, talent is the first node in any organisational framework. It is a cornerstone from which every organisational initiative begins. People Matters SHRPA Research 2024 revealed that talent shifts are among the top 3 factors shaping the business outlook and growth. Hence, talent plays a central role in organisational pivoting, acting as the key driver behind an organisation's ability to reflect, adapt, innovate, and respond to changes.

You as business, people and HR leaders hold the key to guiding organisations through this transformative period. As the architects of people and work strategy, you have the responsibility—and opportunity—to lead the change.

At **People Matters TechHR Singapore 2025**, we will explore the critical theme of **Pivoting to Ace the Next Curve of**

Change, inviting leaders to reflect on the existential question: **'Are we adapting fast enough, or are we risking irrelevance?'**

Join us at **People Matters TechHR Singapore 2025 on 6th of March at Marina Bay Sands, Singapore** and **become part of a movement to shape the future** of work, business, and leadership. Together, let's explore how to harness the power of change to pivot your business, reimagine your talent strategy, and lead innovation in an era of disruption.

Be among forward-thinking leaders who aren't just responding to change—they're driving it. Let's build the future of people, work, and technology, one pivot at a time. This is your opportunity to learn, connect, and be at the forefront of change.

THE NEED TO PIVOT:

Why Is People Matters TechHR Singapore 2025 Important For You & Your Business?

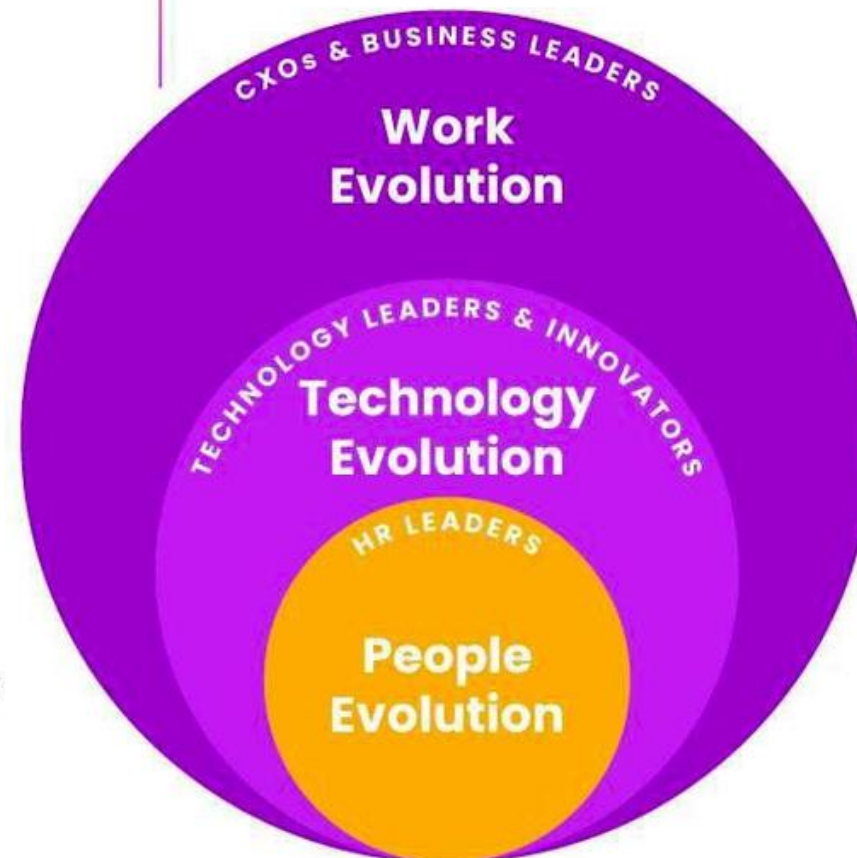

People Matters TechHR is the annual convergence of future-forward business and talent leaders – an event that provides inspiration from the most progressive thought leaders of our time and connects our community to the most trusted solutions providers and our bustling partner ecosystem.

“PIVOTING ISN'T PLAN B. IT'S PART OF THE PROCESS.”

Jeff Goins

This era is a reminder that adaptability is the lifeblood of longevity. Organisations must rewire their approach to business, talent, and technology recognising that what worked yesterday will not be relevant today or tomorrow. The need to pivot isn't just about survival—it's about thriving in a world where the pace of change has never been faster. Those who fail to pivot will inevitably perish, losing relevance, market share, and talent.

There are **three key dimensions** of organisations that are evolving with continuous changes and require leaders to pivot fast to remain relevant and stay ahead.

As architects of the future of people and culture, **CHROs, HR leaders and talent leaders have an opportunity to play a role in human evolution** leading to organisational success that lasts.

Our agenda at People Matters TechHR views business challenges through the lens of business, people, culture and technology, in a bid to see beyond the exigencies of our present times.

The future is for the brave and the fearless who are ready to play bold!
